Many More Women
HAVE DISCOVERED THE MAGIC
in the words SHOP BY TELEPHONE

The things now being ordered by telephone include practically everything in the home. Every day busy women order their groceries, meats, vegetables and drugs this easy way. And a great many women have found it just as easy to order many other things by telephone.

When the weather's bad, or you wish you could rest instead of going out—let your telephone be your errand boy! You'll find your money goes just as far—and you'll have more time for yourself. New York Telephone Company.

ASK

your Architect—

to make provision—*in the plans*—for telephone conduit (inexpensive ordinary pipe) to be placed in the walls when you build. Then you can have modern telephone outlets where you want them. There will be no exposed wiring on base boards or moldings to mar the appearance of your rooms.

After the house is completed, wall insulation, fire stops, and concrete construction may make it impossible to run telephone wiring through walls.

IT'S WONDERFUL TO TALK TO YOU!

HERE'S a pleasure you'll Enjoy--

There is something really exciting about telephoning someone far away. It's hard to describe in words -- you need to experience it.

Just try it some time soon when there's a birthday to remember--a lonesome boy or girl away at school or camp--a long spell between personal visits to the folks back home.

And there's this extra inducement-- Long Distance rates to most places are reduced every night after 7 --and all day every Sunday.

When you want to find out "Who sells it"—look in the Classified Section of your telephone book. Saves time and worry.

Planning to Build?

Plan for "Concealed Telephone Wiring"

A simple, ordinary pipe is installed inside the walls—before firestops and wall insulation are added.

Telephones are connected with no exposed wires to mar walls or woodwork.

It's not easy these days, with fully insulated walls, firestops, and other features of modern building to conceal telephone wires within the walls. Not easy—*unless* you plan in advance to have conduit (ordinary pipe) placed in the walls at the time you build.

This simple, inexpensive feature enables you to add telephones . . . in different rooms from time to time—without having exposed wiring on baseboard or molding. It enhances the attractiveness of a room when there's a telephone. Why not find out more about it? No obligation—just call the Business Office.

An outlet box is placed at the proposed telephone locations upstairs

THE Modern Home

...makes provision for "Concealed Telephone Wiring" *in the plans.*

1. A simple conduit (pipe) is installed inside the walls at the time your home is being built.
2. Your telephone wires are run through this piping to outlets in rooms where you wish telephones.
3. No exposed wiring need show on walls or baseboards.
4. Yet the cost of this feature is low.

For further information just call the Business Office (Dial "811") and ask for "Architects and Builders Service".

your Architect — to make provision—*in the plans*—for telephone conduit (inexpensive ordinary pipe) to be placed in the walls when you build. Then you can have modern telephone outlets where you want them. There will be no exposed wiring on base boards or moldings to mar the appearance of your rooms.

After the house is completed, wall insulation, fire stops, and concrete construction may make it impossible to run telephone wiring through walls.

TELEPHONE the NEWS!

Why keep good news a secret—when it's so easy—and costs so little—to share it by telephone? Rates are low—even if you don't take advantage of the reduced Long Distance rates which are in effect to most places every night after 7, and all day every Sunday.

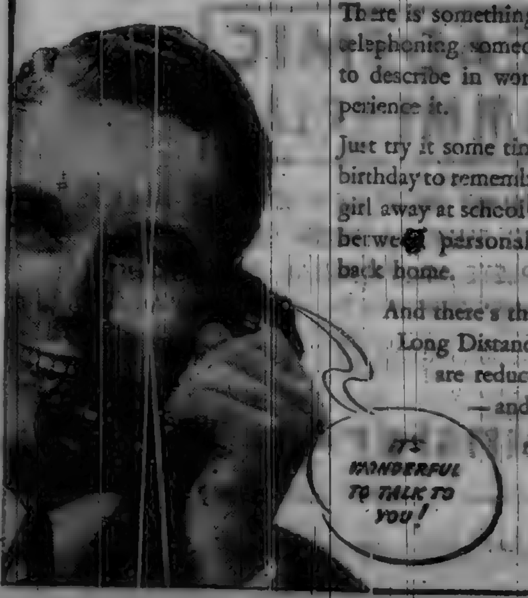
HERE'S a pleasure you'll Enjoy—



IT'S WONDERFUL TO TALK TO YOU!

There is something really exciting about telephoning someone far away. It's hard to describe in words — you need to experience it.

Just try it some time soon when there's a birthday to remember — a lonesome boy or girl away at school or camp — a long spell between personal visits to the folks back home.

And there's this extra inducement — Long Distance rates to most places are reduced every night after 7 — and all day every Sunday.

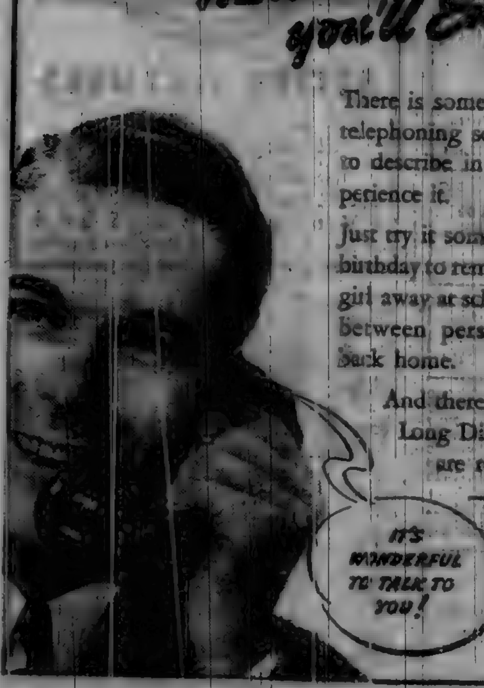
HERE'S a pleasure you'll Enjoy—



IT'S WONDERFUL TO TALK TO YOU!

There is something really exciting about telephoning someone far away. It's hard to describe in words — you need to experience it.

Just try it some time soon when there's a birthday to remember—a lonesome boy or girl away at school or camp—a long spell between personal visits to the folks back home.

And there's this extra inducement—Long Distance rates to most places are reduced every night after 7—and all day every Sunday.

WHY NOT ENJOY THE CONVENIENCE OF
INTERIOR COMMUNICATION
IN YOUR HOME?
For more information . . . call the Telephone Business Office.

Here's a Service that *Speeds* Business

If you have need for swift, written intercommunication in your business, you can profitably use Teletypewriter Service.

A large coal company saves time by using "teletype" to dispatch orders to branch yards in various parts of the city. A chemical company—for sending order numbers and details from warehouse. A brokerage house—for transmitting orders and instructions from one branch to its main office in a city several hundred miles away.

These are just a few of the ways business houses in all parts of the country are using the "teletype" to speed business and give better service to customers. There are two kinds of Teletypewriter Service: Private Line—where two or more machines are permanently connected; Exchange Service—where the machines are connected through a telephone central office in similar manner to the connection of one telephone with another.

OUTSTANDING FEATURES

Availability . . .	Teletypewriter "central" will connect any subscriber in the United States to any other subscriber.
Speed	Connections are fast—comparable to the telephone.
Two-Way Service	Subscribers can type back and forth on the same connection.
Accuracy . . .	The copy received is identical with that transmitted.
Simplicity . . .	Any competent typist can operate it.
Privacy	Communication is direct between sender and receiver.
Flexibility . . .	Letter sized paper or your own forms can be used. As many as six copies can be made in one writing.

For further information, call the Business Office. (Dial 811)

TELEPHONE the NEWS!

Why keep good news a secret—when it's so easy—and costs so little—to share it by telephone? Rates are low—even if you don't take advantage of the reduced Long Distance rates which are in effect to most places every night after 7, and all day every Sunday.

Many More Women

HAVE DISCOVERED THE MAGIC

in the words SHOP BY TELEPHONE

The things now being ordered by telephone include practically everything in the home. Every day busy women order their groceries, meats, vegetables and drugs this easy way. And a great many women have found it just as easy to order many other things by telephone.

When the weather's bad, or you wish you could rest instead of going out—let your telephone be your errand boy! You'll find your money goes just as far—and you'll have more time for yourself. New York Telephone Company.

When your name is in the telephone directory, your friends can reach you quickly and easily for chats and invitations. It probably costs less than you thought to have a telephone at home!

"It's Me, Gran'pa!"

How satisfactory it is, when distance separates you, to keep in close and frequent touch with all the family, old and young and in-between... by Telephone. Voices sound so clear, so true, that it's hard to believe so many miles are between you.

"I WAS SURPRISED"

That's what people say—about the low telephone rates to out-of-town points. Long Distance rates to most places are bargains especially after 7 p.m. and all day every Sunday.

HERE'S a pleasure you'll Enjoy—
IT'S WONDERFUL TO TALK TO YOU!

There is something really exciting about telephoning someone far away. It's hard to describe in words — you need to experience it.

Just try it some time soon when there's a birthday to remember—a lonesome boy or girl away at school or camp—a long spell between personal visits to the folks back home.

And there's this extra inducement — Long Distance rates to most places are reduced every night after 7 — and all day every Sunday.

Many More Women

HAVE DISCOVERED THE MAGIC

in the words SHOP BY TELEPHONE

The things now being ordered by telephone include practically everything in the home. Every day busy women order their groceries, meats, vegetables and drugs this easy way. And a great many women have found it just as easy to order many other things by telephone.

When the weather's bad, or you wish you could rest instead of going out—let your telephone be your errand boy! You'll find your money goes just as far—and you'll have more time for yourself. New York Telephone Company.

THERE'S NO WAY LIKE THE AMERICAN WAY

Why?

BECAUSE:

I can go to any church I please—
I read, see and hear what I choose—
I can express my opinions openly—
My mail reaches me as it was sent . . . uncensored—
My telephone is untapped—
I can join any political party I wish—
I can vote for what and whom I please—
I have a constitutional right to trial by jury—
I am protected against unlawful search and seizure—
Neither my life nor my property can be forfeited
without due process of law—

We the People . . .
